

Job title: MIG Welder Fabricator
Department: Fabrication

The role:

This is a great opportunity to join a thriving family-run local company. We are recruiting a MIG Welder Fabricator to work in our clean factory. The role involves batch production of welded mild steel components. These parts are used in the assembly of manual and powered manual handling machines.

Work location:

We are based in Leedstown near Hayle, Cornwall. Watch this [video](#) showing our modern manufacturing facility and welding shop (also shown on our website homepage).

Main purpose of role:

- Supply our customers with 'best-in-class' manual handling products.
- Assist to increase the level of output from our fabrication/welding department.
- Communicate with team members and add to a strong dynamic team.

Key tasks and skills:

- Fabricate batches of welded mild steel components at the direction of the department supervisor.
- Produce batches of welded components with a high attention to detail ensuring parts match the engineering drawings provided.
- Ability to read technical drawings and weld symbols.
- Where required prepare metal for fabrication (i.e. metal cutting, drilling and folding).

Qualifications and experience required:

- Experience in MIG welding required.

The company:

STS is a small innovative company focussed on manufacturing specialist high-quality drum handling equipment. The company is one of a handful of well-known global companies involved in the design and manufacture of specialist drum handling equipment; over 50% of our equipment is exported. The company supplies equipment into a wide range of industries including Paint, Chemical, Pharmaceutical and Food. We manufacture in steel and stainless steel with lifting capacities ranging from 20kg to 2000kg.
